

SEPTEMBER

11

8:00 PM

NDCW

NIAGARA DISTRICT COUNCIL OF WOMEN

Established 1918

Join us on Wednesday September 11 at 8:00 pm for a Public Forum, **The Climate Change Crisis - We All Have a Role to Play**, with guest speaker Ed Smith.

Mr. Smith was recently appointed as the City of St. Catharines representative on the Niagara Peninsula Conservation Authority (NPCA) Board of Directors. He is a clarion voice in the rapidly growing public awareness of threats to Niagara's natural world from global warming and climate change.

He has spoken strongly over the past several years about NPCA's pro-development decisions which have put Niagara's environment at risk. Now, with the public's strong awareness and desire for change, he is urging NPCA to take a leadership role.

As he said recently, "We are very aware of the ecological crisis and the damages global warming will bring if we don't act immediately. Now is the time to put Niagara's environmental protection on the top of everyone's agenda!"

Mills Room - St Catharines Central Library, 54 Church St.

THE CLIMATE CHANGE CRISIS

We All Have a Role to Play

GUEST SPEAKER

Ed Smith

St. Catharines representative on the Niagara Peninsula Conservation Authority (NPCA) Board of Directors
